

FR-BIO-16

**SURFACE OF THE VINEYARD** : 7 hectares

**DENSITY OF PLANTATION :**

0.66 ha planted at 3300 trees per hectare and aged of 35 years and more

5.77 ha planted at 5500 trees per hectare and aged of 25 years and more

0.50 ha planted at 6200 trees per hectare planted in 2018

**GLOBAL GRAPE VARIETIES** : 66 % Merlot, 17% Malbec, 11 % Cabernet Franc & 6% Cabernet Sauvignon

**SOIL** : A view which illustrates the soil of the area and its character was expressed by local people who said “your earth is in love Sophie”. To fully understand this expression one only has to walk around (particularly in damp conditions) to find it clings to you like a lover, literally on your boots! Indeed, the ground is dominant with white, green, red or brown clay elements. But as it is usual in this sector, the soil is extremely varied with limestone zones and other rocky sectors. At any rate, the suitability of the ground to the production of vines was demonstrated as remarkable when, excavating to a depth of 8 meters prior to construction of the wine storehouse, the exposed clay at that depth was observed to be full of roots.

**CULTURE** : The domaine is committed to organic approach since 2010, certified by Qualisud. We dedicate lots of our energy to the work of the ground and to control a qualitative grassing which, coupled with clays, takes care to regulate the shoot of the vine. We lead the vineyard in « Bordelaise pruning » and make all the operations in green necessary to obtain high quality grapes ( removing the unwanted new shoots, trellising high, thin the leaves and removing green bunches of grapes thinning out the leaves if needed).

**LA RENAISSANCE  
VIN DE FRANCE**

**BLEND** : Cabernet Franc

**PRODUCTION** : Around 300 bottles

**WINEMAKING** : The date of grape harvest is defined according to the tasting of the berries. Manual harvest. Vinification & aging in stoneware jars.

**LA RENAISSANCE TASTING PROFILE** : A wine of smoothness, with an atypical profile. Explosion of blackcurrant and violet on the nose and palate. Intense aromatic persistence.

**DOMAINE LES CARMELS**
